Well it that time Again

This is a day that an event comes to the injured allowing them a relaxing day with their families enjoying great music, food, door prizes, socializing and viewing the MC's.

In the past little miracles or unexpected positive things arose making this event very important.

We will be there, Rain or Shine, indoors or outdoors and your attendance is very important and extremely appreciated by all!

Ride Safe!

And a Thank you to the Gospel Riders for all their help with the cooking they have done for many years.

"HELPING INJURED RIDERS SINCE 1983"

Serving over 250,000 on-and-off road motorcyclists throughout the province, A.I.M. is a benevolent, non-profit society registered under the provincial Societies Act and holding a Federal Charitable Tax Number. A.I.M. is committed to assisting injured motorcyclists by providing legal assistance, knowledge of rights, assistance with emotional support as well as regular hospital visits and helping with aspects of recovery not covered by other agencies. It is operated solely by volunteers and relies on memberships and donations for funding.

Ride like you are Invisible, Ride Defensively!

MOTORCYCLE INJURY LAWYERS SINCE 1973

MOTORCYCLE ACCIDENT?

WE ARE THE ONLY LAW FIRM WHO:

- All ride motorcycles; we know what's right and wrong
- Attack "cloak-and-Dagger" investigations by Police & ICBC
- Never work for ICBC
- Access the best experts
- Consistently go to trial against ICBC – and Win!
- Organize support while you recover
- Supports the motorcycle community

OUR MISSION IS TO:

- Protect your rights
- Receive fair compensation, and fight to the very end

TURN THE TABLES ON YOUR ICBC CLAIM CALL YOUR LAWYER FIRST

1.800.535.6565

McNENEY McNENEY SPIEKER

is a full service injury litigation law firm which has advocated for Motorcyclists' recognition and fair treatment by legal authorities and I.C.B.C. for over 30 Years.

We fill the gaps left by Police and Insurers through client support: from investigation and rehabilitation, to specialist referrals, to fair financial compensation through settlement or trial.

Motorcyclists are often seen as "Trouble" or "Blameworthy" for riding. We use our experience as riders and as Trial Lawyers to transform such prejudices through witness management, case presentation, and courtroom techniques.

VOLUNTEERS !!!!! WE NEED YOU!!!!!

In order for AIM to continue to be effective we need your assistance.

Within AIM there are many ways to be involved.

First by informing AIM of injured Motorcyclists. Due to the Privacy Act, it is very difficult to obtain information from Police or Hospitals. Therefore we rely on you the Motorcyclists to keep us informed in the event of an accident.

Second we can use manpower, If you have some time and would like to assist with a fundraising project or could do a "shift" for an event or would like to visit people..PLEASE let us know. It is through individual's participation that we are able to get the job done.

Last but not least we need your continued support by being a member. It is the Membership that gives AIM the foundation from which to assist others. For your past assistance we give hearty thanks.

AIM has been serving the Motorcycle Community for almost 35 years.

We look forward to continuing in the years to come. With your help, we, the Motorcycling Community can make a difference in the lives of others.

Showing a Beginner how to Ride

Preferably have them take a riding course, but if they don't at least read this. After the basics of starting in first gear and coming to a controlled stop try this...

1. Start with straight line braking using both brakes, let the person gain confidence in how the bike brakes. Set-up markers or use the parking lot lines to gauge how far it takes to brake from 30 mph, then show the learner how much of a shorter distance you can brake, (controlled) this will give the person some idea of the bikes capabilities.

2. Teach the Push/Pull method of steering. (Counter Steering) This one is a must and a true lifesaver. At about 35-40 Mph have the learner, just slightly, push the right handlebar as they pull the left handlebar then pull the right handlebar and push the left handlebar continuously back and forth so the bike is gently swaying from side to side as they go through a large open parking lot or a roadway with no traffic. As the learner gets more comfortable with the handling of the bike they can use this method to attempt large "figure eights"

3. As their confidence and talent increases they can try tight circles and figure eights at low speed using clutch, brake and throttle control to keep the bike in control. This can progress until the learner can turn the bike with the handlebars hitting the steering stops both ways at slow speeds.

4. Use counter-steering to perform long sweeping turns at 35-40 mph.

5. Remember your front brake is the majority of your braking power; learn to use it wisely. If you don't believe that think about this, your back brake is completely useless when your rear tire is two inches off the ground! Just keep your front tire straight once you're that good!

Some good protective gear and a DOT full-face helmet might not be a bad idea either when you're learning!

Good luck, and once they take to the streets tell them to ride like everyone is out to kill them. That way they'll be prepared when they do try, and it is a question of when...not if.

The RCMP Safety Rides

This is AIM's second year at this event which is definitely enjoyable. There was a strong attendance from both, RCMP and Public compared to last year.

The course is challenging and shows you what you need to know.

It is open to the public to register and test yourself or be part of the audience.

Hope to see some of you there next year.

Dave Munro - President

The MLA Ride

A beautiful warm and dry day for a MC and ferry ride, to Victoria on Vancouver Island. Several of the MLS's ride and several of those who showed up took other MLS's for a ride.

It is beneficial for the MLS's to see what is going on between cars and bikes. Sometimes they will see how observant some drivers are to bikers.

Lots of PR and good attendance, appreciated the munchies and thanks to everyone who showed up.

Dave
